

2.2 **BATTERIE CHECK:** Only for ZR009701; ZR009705; ZR0097U5

DO NOT USE P3A BATTERY ON P3 DEVICE AND VICE VERSA

only for ZR009701; ZR009705 and ZR0097U5

LUMINOUS WITNESS ON THE BATTERY

1. Connection and charging

When connecting, if the 3 diodes light up, the battery is full.

When charging, the 3 diodes flash and freeze one after the other. Then they flash 3 times and turn off when it is recharged.

2. Test with the complete device

No diode lit during use.

If the battery flashes red, there is a fault on the device. Proceed by elimination to isolate which element is at fault: charger → battery → cleanette → tube → brush
